

AMENDMENTS TO THE SPECIFICATION:

On page 27 of the original Specification, lines 11-16 read as follows:

“Fig. 24A is a cross-sectional view of an example of a polysilicon resistor as a semiconductor device of a sixth embodiment of the present invention, while Fig. 24B is a cross-sectional view of a step of the process of production of a semiconductor device of the sixth embodiment of the present invention.”

Please replace that section with the following:

Clean Form:

“Fig. 24A is a cross-sectional view of an example of a polysilicon resistor as a semiconductor device of a sixth embodiment of the present invention, while Fig. 24B and Fig. 24C are cross-sectional views of steps of the process of production of a semiconductor device of the sixth embodiment of the present invention.”

Marked Version:

“Fig. 24A is a cross-sectional view of an example of a polysilicon resistor as a semiconductor device of a sixth embodiment of the present invention, while Fig. 24B and Fig. 24C are cross-sectional views of steps ~~is a cross-sectional view of a step~~ of the process of production of a semiconductor device of the sixth embodiment of the present invention.”
